

***Problem – Transporting goods from
ground level to hotel cellar***

***Solution – Technicaids Double
Scissor Lift Table***

TECHNICAIDS
PTY LTD

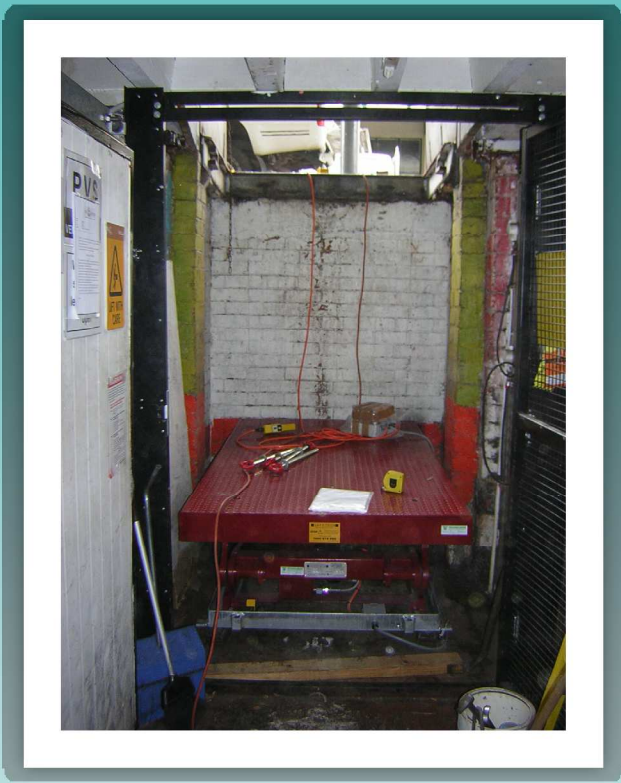

Our customer – an icon Hotel in Fremantle Western Australia were looking for an easy, safe & trouble free way to load goods from street level where deliveries were made, down to their cellar and coolroom which is located below ground level.

A custom made solution was designed. A Hydraulic Scissor Lift Table.

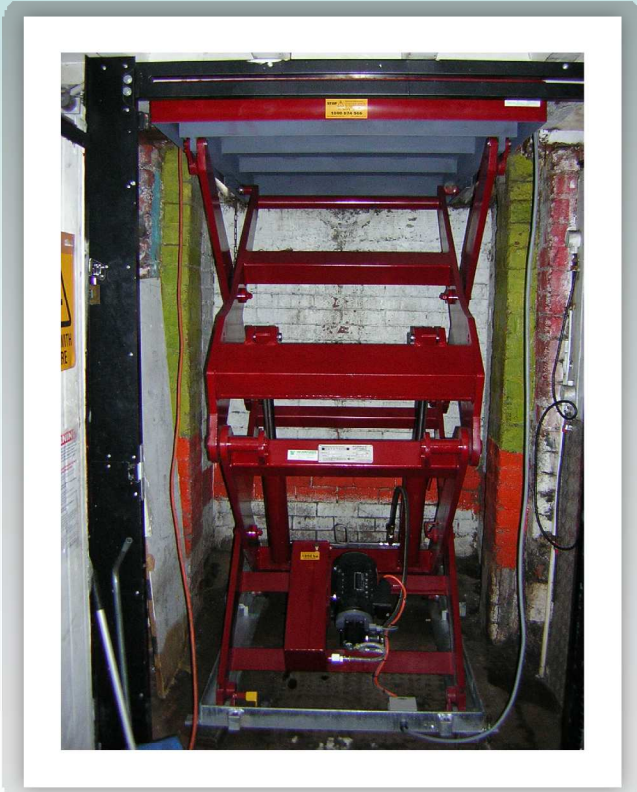

This picture – installing the lift table

Installed. An interlocking gate system was integrated into this installation to eliminate personnel access to the pit when the table is in use.

Pictures this page – The lift table as viewed from the cellar. Lowered & Raised.

These two picture show the lift table from street level – Lowered & Raised
